

RealLegal E-Transcript

STANDARDIZED, SECURE, SUPERIOR TRANSCRIPTS

for litigators and courts

Download a free sample of an electronically signed RealLegal E-Transcript file from www.RealLegal.com and see for yourself the difference digital makes!

RealLegal **E-Transcript™** is the litigation market standard in electronic transcripts from your court reporter. An E-Transcript file is created by your court reporter with RealLegal software and delivered to you via e-mail or on diskette.

E-Transcript software guarantees page and line integrity, so you get a consistent, professional version every time – no more wrestling with ASCII files!

Your E-Transcript file is:

- Read only • Encrypted • Virus protected • Password protected
- Searchable • Printable • Electronically signed

E-TRANSCRIPT DELIVERS

- **No special software needed** – Simply double-click on the file to open, view and print your E-Transcript file. All of the software you need comes embedded in the E-Transcript file.
- **Reduced delivery time** – Instant delivery via e-mail. No more waiting for couriers.
- **Security** – Every electronically delivered E-Transcript file offers password protection, encryption and virus-protection.
- **Guaranteed page and line integrity** – Every E-Transcript file you receive is consistently professional and always perfectly formatted.
- **Digitally certified** – At your request, you can receive an E-Transcript file that has been electronically signed with an E-Transcript Signature. E-Transcript Signatures follow statutory guidelines for admissibility and ensure the transcript's authenticity.
- **Printing power** – Print up to 16 pages of transcripts per sheet, as well as word indices.
- **Quick Transcript Review** – Reduce the time you spend digesting and summarizing transcripts with E-Transcript's automatically generated Hyperlinked Word Index. The interactive key word index is electronically linked to page and line numbers in the transcript.
- **Easy and accurate citations** – Copy text directly from the E-Transcript file and paste it into your work product. The pasted citation includes deponent name, date, page and line summary, and the formatted text.
- **Export flexibility** – E-Transcript files can be saved as page image ASCII, page image with no time stamps, Amicus®, Summation®, or even user-defined formats for the ultimate in flexibility.
- **Familiar** – E-Transcript files look just like the thousands of paper transcripts you're used to juggling. Only now they're electronic, compact and easy to use.

RealLegal E-Transcript

IT'S ALL IN HOW YOU VIEW IT

The **E-Transcript Viewer** is embedded in every E-Transcript file. All you need to do to launch this powerful interface is double-click on your E-Transcript file. This Viewer was created with attorneys, courts and paralegals in mind. It simulates the way you are accustomed to working with paper transcripts and word indices.

Users need no special software to view, search or print! Mac-using attorneys can even download the free E-Transcript Mac Viewer from www.RealLegal.com for complete E-Transcript functionality. If your firm has a firewall and cannot accept EXE files, just ask your court reporter to send you PTX files. The PTX format is smaller, thereby taking less time to transmit via the Internet and less storage space, and since it is not an executable file, it will pass through e-mail systems and firewalls. All you need to do to open this PTX file from your court reporter is download the free E-Transcript PTX Viewer from www.RealLegal.com.

THE PROOF IS IN THE PRINTING

E-Transcript's print utility is built right into the Viewer. You don't need to use another program to print single transcripts or do condensed printing. Some of the powerful print features let users:

- Print single transcripts, word indices, or condensed prints from one to 16 pages of professional quality, clean, readable transcript per sheet.
- Produce a printed global word index with a simple mouse click.

E-TRANSCRIPT SIGNATURES MADE EASY

No more waiting for certified hard copies from your court reporter. In accordance with the standards set by the **National Digital Transcript Certification Authority (NDTCA)**, RealLegal offers electronic transcript signature technology integrated right into your RealLegal E-Transcript file.

You receive a printable, verifiable electronic transcript signature with every E-Transcript file, ensuring the authenticity of the court reporter and the transcript. RealLegal E-Transcript Signatures:

- Follow statutory guidelines for admissibility.
- Accelerate certified transcript delivery.
- Are presented in the full-featured E-Transcript Viewer.
- Work seamlessly with your court reporters' current signature page practice.
- Make it effectively impossible for a transcript to be altered.
- Ensure nontransferable certification to a designated attorney.
- Are always valid.

MANAGE ALL OF YOUR TRANSCRIPTS WITH REALLEGAL BINDER™

**RealLegal
Binder**

From the transcript experts comes the most powerful software program available to manage multiple transcripts and take control of a complete trial or deposition. Import E-Transcript, ASCII or PTF files (from LiveNote[®], Summation[®] or Concordance[®]), as well as search, review and report on everything from depositions and motion hearings to trial testimony and closing arguments. Binder features the industry's ONLY automatic laptop-to-network project synchronization, as well as Realtime, and integration with both CaseMap[®] and JFS Litigator's Notebook[®]. For free demo software, go to www.RealLegal.com.
